ForgeHouse

FOR MENTORS

More people need what you know than you'll ever have time to help.

ForgeHouse turns elite mentors into AI agents — trained on your real expertise, available to subscribers 24/7. You stay in control. Your knowledge works while you don't.

HOW IT WORKS

01 **Extract.** We conduct deep sessions to capture your frameworks, mental models, and real-world advice.

02 **Build.** We train an AI agent that thinks and responds like you — not a generic chatbot, your actual expertise.

03 **Launch.** Your agent goes live on ForgeHouse. Subscribers get 24/7 access. You get reach, revenue, and leads.

WHAT YOU GET

- **Reach without time.** Help hundreds of people simultaneously without a single extra call.
- **Revenue from every conversation.** Earn from your agent's usage — passive income from decades of expertise.
- **Consulting leads.** Every subscriber is a potential high-ticket client. We refer them to you directly.
- **Two-way growth.** You promote your agent to your network. We send leads to your consulting practice.
